<intro: D - Db - D - Db>

D G D
I met a boy in a bar last night
He smiled and I saw his wiggly tooth A
D G D
I pulled it out, put it under his pillows that night
The fairies came into his room A

G D
The fairies came, the fairies came
G D
The fairies came that night
G A D Db D Db
The fairies came into his room

Worked on a barge in Ontario
The captain was a slimy fuckin' drunk
We hit a reef and it was scary-0
The oil all leaked out and then we sunk

The ferrys came, the ferrys came
The ferrys came that night
The ferrys came and drove us home

I met a girl on the ferry boat
She had wings, and gold dust in her teeth
Then I reached down and felt her magic wand
And I realized that he was just like me

That fairy came, that fairy came
That fairy came that night
That fairy came to be my best friend Carl

Em C
Walked on a bridge, walked on a bridge
D
Oh where's my bridge? (Yeah yeah one two three four)

<instr. verse>

I got a job at a fast food joint
I sold Coke and straws by the pound
My fairy godmother laughed at me
And she kicked my sorry ass right out of town

She kicked my ass, she kicked my ass
She kicked my sorry ass
She kicked my ass right out of town

<repeat 1st verse and chorus>
